DNR ENFORCEMENT ACTIONS

MEDIA CONTACT: Jessie Brown at (515) 281-5131.

DES MOINES — The DNR took the following enforcement actions in October and November 2007, unless otherwise noted. The following are only briefs; please contact Jessie Brown of the DNR for more information at (515) 281-5131.

Enforcement actions, including copies of the original orders and contact information, are available on the DNR's Web site at www.iowadnr.gov/legal/eactions.html. The Web listing offers orders first taken in 2007 (amendments to orders issued prior to 2007 are not listed).

Consent Orders

A consent order is issued as an alternative to issuing an administrative order. A consent order indicates that the DNR has voluntarily entered into a legally enforceable agreement with the other party.

Carroll County

- Brian Riesberg, of Carroll, agreed in a consent order to apply for a National Pollution Discharge Elimination System (NPDES) permit if he is still involved in the operation of the facility as of March 1, 2008, and to pay a \$9,500 penalty. The consent order is in regard to a manure release to Brushy Creek from a hog open feedlot and confinement site in Carroll County.

Clay County

- Jim Christensen, of Royal, agreed in a consent order to pay \$3,997.40 in fish restitution and to pay a \$6,000 penalty. The consent order is in regard to a manure discharge from an open cattle feedlot that contributed to a fish kill in Willow Creek.

Crawford County

- Amaizing Energy Denison, LLC, of Denison, agreed in a consent order to pay a \$10,000 penalty. The consent order is in regard to air quality construction permit and stack test violations at its Denison facility.

Des Moines County

- The City of Burlington agreed in a consent order to establish an enforceable schedule for implementing a Long Term Control Plan to separate its combined sewer system.

Scott County

- The City of Princeton agreed in a consent order to submit a Community Development Block Grant application to the Iowa Department of Economic Development, submit plans and specifications with an application for a construction permit no later than June 1, 2009, to begin constructing sewer system or wastewater treatment facility improvements by June 1, 2009, and to complete construction no later than June 1, 2010. The city agrees to stipulated penalties if deadlines are not met.
